

## **Scoring more than points during the finals**

We've made it to the finals! What a season we've had. Congratulations to all club members for their commitment, team work and sportsmanship.

This season, our players have shown us that each game has been about scoring more than just points. Players have developed their sense of fairness, discipline and integrity, along with their fitness and skills – all the while having a good time representing our club.

And the finals should be no different. During the finals series, it's important we keep the bigger picture in perspective. The finals should be just as enjoyable for everyone as the rest of the season has been.

Even though the stakes are high, there will be no tolerance for unsporting behaviour. While revving up your energy, remember to keep your emotions in check and everyone will enjoy themselves.

Good luck and play fair!
